SUMMARY

Motivated student with a strong foundation in programming, data analysis, and problem-solving. Currently developing expertise in Python, Data Science, and Artificial Intelligence, with hands-on experience in data processing, API integration, and AI-driven applications. Familiar with modern AI tools including large language models and data-driven systems, eager to apply analytical and technical skills in a structured corporate IT environment.

EDUCATION

Hamburg University of Technology

B.S. in Engineering Science with specialization in Data Science

Hamburg, Germany

Oct 2025 – Sept 2029

Brahma Shakti Public School

High School

New Delhi, India

March 2022 – April 2024

PROJECTS

Automated Financial Data & AI Analytics Platform

Oct 2025 – Feb 2026

High-velocity, AI-assisted development

- Developed a real-time cryptocurrency monitoring dashboard using Python and Streamlit, integrating three external REST APIs.
- Executed the full Software Testing Life Cycle (STLC) to verify multi-API data integrity and AI output accuracy.
- Used Pandas and NumPy for data processing and implemented price trend visualizations using TradingView embeds.
- Performed manual testing including input validation, boundary value testing, positive and negative test cases, and edge case scenarios.

TutorMe - Study Assisant

Dec 2025 – Present

High-velocity, AI-assisted development

- Shared with peers for feedback on output quality, refining chunking strategy based on real study session results.
- Built a study assistant allowing PDF uploads to generate notes, summaries, flashcards, and MCQs via a RAG pipeline.
- Implemented FAISS vector store with nomic-embed-text embeddings for semantic search over course materials.
- Integrated Ollama for fully local LLM inference, ensuring data privacy and offline functionality.
- Designed the frontend UI using Google Stitch MCP, enabling rapid prototyping and seamless backend integration.

TECHNICAL SKILLS

Programming Languages: Python

AI & Data Science: LLMs, LangChain, Retrieval-Augmented Generation (RAG), Prompt Engineering, Pandas, NumPy

AI Tools: Familiarity with AI-assisted development (e.g., Cursor, Claude Code, Antigravity) and API-driven automation

Visualization & Analysis :Streamlit, Power BI, REST APIs, MS Excel

CERTIFICATIONS

Google Data Analytics Professional Certificate

Python for Data Science, AI and Development Certificate

Practical Python for AI Coding 1 and 2

LANGUAGES

English - Fluent

German - A2 (Learning)

Hindi - Native
